

BuyBackWorld.com presents ASSET DISPOSITION SOLUTIONS

CALL US NOW (877) 69 BUYBACK

Asset Disposition Services from BuyBackWorld offers secure and compliant end-of-life IT Asset Disposition Services ranging from **logistics management, data erasure, IT asset disposal, recycling, remarketing** and **redeployment**. Our goal is to maximize the reuse and resale value of each asset where possible and recycle assets with no value in a matter exceeding environmental regulations and industry standards. This is accomplished by removing idle, excess and obsolete inventory from companies, making it possible for new, revenue-generating inventory to enter the channel.

BuyBackWorld provides additional financial benefits by supplying cash for reinvestment

into new inventory, while minimizing the costs associated with depreciation and upgrading to newer technology. In a world where asset disposition and "being green" have become obligations, there has never been a more prominent need for a true business partner focused on the proper disposition of your organization's e-waste.

BuyBackWorld is able to leverage the use of our existing relationships within global markets to recover the most value from old electronics and pass those savings on to you. With our pro-active asset management approach, your company can maximize residual value management, enhance your environmental credibility and increase your bottom line all at the same time.

Benefits:

- **Quick, Easy & Convenient** - We offer **FREE Shipping, data erasure** and a **personal account representative** to answer all of your questions along the way.
- **Transparency** - We provide **real-time tracking** of your package along the way and offer **full reconciliation** at the end of our process through a detailed report.
- **Financial Incentive** - Our service offers your business **immediate cash for re-investment** while **minimizing depreciation costs** associated with upgrades.
- **Environmental Credibility** - We work with **ISO 14001 certified recyclers** and **E-Stewards members** to ensure all devices are recycled safely if we can't find a second home for your devices.

Process:

- **Place Your Order** - Place your order by visiting our Bulk BuyBack Department online at <http://buybackworld.com/bulkbuyback> or calling us directly at (877) 692-8922. An account representative will walk you through the entire process.
 - **FREE Shipping** - We send you PrePaid shipping labels and instructions on how to package your items.
 - **Data Erasure** - We value our customer's privacy and confidential information so we wipe all of your devices to **Department of Defense standards** and shred all confidential data through our ISO 14001 certified and NAID partners.
- **Zero Landfill Policy** - Our first option is to reduce e-waste through reuse, but even if we can't pay you for your device, we work with local **ISO 14001 certified** partners to ensure your devices are recycled responsibly.
- **Fast Payment and Reporting** - We issue **payment via check or PayPal** and provide a **detailed end user reconciliation** of all your items upon inspection.
